

Agrippa Acoustic Door Closer

Features

- Digital acoustically triggered door closer
- Learns the sound of your fire alarm
- Easy wire free installation and programming
- Daily timed release option
- Holding angle 65-105 Degrees
- Two alkaline C cell batteries
- Conforms to EN1155, EN1154 and CE Marked

Description

The Agrippa door closer learns the sound of your specific fire alarm, releasing the door in the event of a fire. This new innovation in the industry is also wire free, so it can easily be retrofitted to any door. The releasing trigger reacts to a particular sound rather than simply a loud noise, significantly reducing false activations.

The closer is easy to install, only requires C cell batteries (which last for 12 months), can be programmed for daily release and has adjustable closing speeds. Suitable for installation to BS 7273-4 category B. Other features include a seven segment LED display, manual release button and a low battery warning display.

Ideally suited to environments such as care homes, schools and hospitals where it is essential to have doors in an open position at certain times of the day to aid access, but equally as important to ensure the doors are closed in the event of a fire. The closer is part of the Agrippa suite of products, which also includes an acoustically triggered fire door holder.

Agrippa Acoustic Door Closer

Item Numbers

4101-7002	Agrippa Acoustic Door Closer
4101-7003	Polished Brass
4101-7004	Polished Chrome
4101-7005	Brushed Stainless Steel
